Camp Expectations

The Father's House Student Life Ministries desires that all behavior, communication and attire to be appropriate for a christian environment. Below are the expectations you can expect your camp counselor to hold you to during the duration of the youth camp experience:

- Honor yourself, God and others at all times
- Participate fully in the schedule set forth by the camp leaders
- Commit to eliminating as many distractions as possible specifically in regards to cell phone use and social media
- Commit to be present focused on each moment and engaging in the moment fully

We realize that parents staying connected with their youth is important for the peace of mind of every parent. We ask that students leave their cell phones with their belongings while participating in group lead activities. Informing parents of the above schedule allows you to know when your young person potentially engaged in a group activity where we are encouraging full participation and present moment focus. If there is an emergency please feel free to call the emergency contact listed above and we will get you in contact with your young person immediately.

It is important for each camper and parent to understand that The Father's House is not liable for any cell phones, electronic devices or personal belongings.
